M. SAHAN PRAMUDITHA PERERA

Third-Year BICT Undergraduate | IT Support & Systems Internship Candidate

Kotugoda, Sri Lanka | +94 76 415 8980 | sahan.dev.tech@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Third-year Bachelor of Information and Communication Technology undergraduate at the University of Colombo, Faculty of Technology, with a 3.4 GPA and hands-on experience in e-commerce systems, production tracking systems, Windows troubleshooting, networking fundamentals, and software development. Seeking an IT Support & Systems internship to apply practical troubleshooting, system support, networking, and automation skills in a professional environment.

EDUCATION

University of Colombo - Faculty of Technology

Bachelor of Information and Communication Technology (BICT) | Sep 2024 - Expected Sep 2028

- Third-year undergraduate; GPA: 3.4/4.0.
- Relevant areas: operating systems, programming, computer networks, databases, system administration, network administration, and DevOps fundamentals.

Christ King College, Thudella

G.C.E. Advanced Level - Engineering Technology Stream

PROFESSIONAL EXPERIENCE

Wybe Fashion - Ja-Ela, Sri Lanka

E-Commerce Administrator & Website Manager | Retail Operations | Dec 2024 - Present

- Manage and maintain the e-commerce website, including product uploads, pricing, product content, catalog updates, and day-to-day website administration.
- Support digital retail operations and coordinate online and in-store product and inventory information.
- Troubleshoot routine website, system, and operational issues to help maintain reliable day-to-day business processes.

Star Garments Group - Katunayake, Sri Lanka

Industrial Engineering Assistant - Production Systems | Sep 2023 - Dec 2023

- Supported Leadtec production tracking systems and device connectivity across production operations.
- Monitored data logging and system reliability and assisted with basic troubleshooting of production-system issues.
- Assisted industrial engineers with production data, workflow monitoring, and process-improvement activities.

TECHNICAL SKILLS

Systems & IT Support: Windows 10/11 installation, configuration and troubleshooting; PC/peripheral and printer troubleshooting; WSL2; Docker fundamentals

Networking: TCP/IP fundamentals, LAN/Wi-Fi troubleshooting, ports, HTTP/HTTPS, localhost/server configuration

Programming: Python, JavaScript, TypeScript, SQL

Web & Backend: React, FastAPI, Node.js, Express.js, REST APIs

Databases & Cloud: PostgreSQL, MongoDB, Firebase/Firestore, AWS fundamentals, Cloudflare, Vercel

Development & Testing: Git, GitHub, GitHub Actions, Pytest, VS Code

SELECTED PROJECTS

SysLens - System Observability & Diagnostics Toolkit | Python, FastAPI, WebSockets, Pytest

github.com/SahanPramuditha-Dev/Syslens

- Built a local-first toolkit for system telemetry, health scoring, behavioral baselines, anomaly detection, live monitoring, and diagnostic reporting.
- Implemented CLI workflows and an optional FastAPI/WebSocket dashboard for real-time system monitoring.

GhostLink - Desktop Network Security Assessment Tool | Electron, React, TypeScript, FastAPI

github.com/SahanPramuditha-Dev/GhostLink-React

- Developed a Windows-focused desktop application for authorized network visibility, diagnostics, topology visualization, system status, and structured reporting.
- Integrated a React/TypeScript desktop interface with a local FastAPI backend and packaged desktop workflows using Electron.

EndpointEra - VS Code API Traffic & Regression Tool | TypeScript, VS Code Extension API, React

github.com/SahanPramuditha-Dev/EndPointEra

- Created a VS Code extension that captures and replays local API traffic, maintains endpoint history, detects regressions, and validates behavior against OpenAPI contracts.
- Added request comparison, reusable tests, automatic pytest generation, performance analytics, and traffic export workflows.

iStore ERP - Retail POS, Inventory & Repair Management System | FastAPI, React, Electron, PostgreSQL/SQLite

github.com/SahanPramuditha-Dev/I-Store-Website

- Built a retail POS and inventory platform with repair-service workflows, role-based access, reporting, backup/recovery, and local/cloud deployment options.
- Used FastAPI and React with Electron for Windows desktop operation, PostgreSQL/SQLite persistence, Docker, and CI workflows.

SELECTED CERTIFICATIONS

- Cisco Networking Academy - Networking Basics
- Cisco Networking Academy - Introduction to Cybersecurity
- AWS Academy - AWS Academy Cloud Foundations
- OPSWAT Academy - Introduction to Critical Infrastructure Protection
- freeCodeCamp - Scientific Computing with Python
- MongoDB - MongoDB Python Developer Path
